Lucky Bucks (LBC) is a deflationary, multifunctional token operating within the OCTA network. Our games platform features a diverse range of casino games, including Blackjack, Casino Hold'em, Plinko, Video Poker, Baccarat, and Roulette, with an everevolving list of offerings. Additionally, we host a weekly lottery, distributing 90% of the pool among the winners and burning the lottery's proceeds along with burning 10% of any fees generated by the DEX.

Introduction:

At Lucky Bucks, our mission is to provide a top-tier gaming experience. Our utility token, LBC, embodies the principles of deflation and utility. We allocate 10% of the casino and lottery profits as well as 10% of the fees generated by the DEX to acquire and burn LBC tokens, effectively managing the token supply and ensuring long-term sustainability.

Fun and Games :

Our platform offers a dynamic selection of casino games, with frequent updates to cater to diverse player preferences. Current games include Blackjack, Casino Hold'em, Plinko, Video

Poker, Baccarat, and Roulette, all designed to provide an engaging and enjoyable gaming experience.

Our weekly lottery draws winners from a pool of participants, with the distribution of prizes and the total number of winners varying each week. We take pride in our commitment to transparency and fairness. Moreover, 10% of the lottery's proceeds are burned, contributing to the continuous enhancement of LBC's value.

Business:

-DEX: We are currently developing a DEX , backed by LBC token to cover trading fees , hosted on the OctaSpace network and eventually integrate and expand to other chains. - Launchpad: In the near future we will be hosting a launchpad for upcoming projects to host their presales and early development.

Development Plans:

Our goal is to create a user-friendly platform that fosters a sense of community and ensures that every user has a great time while gaming. We value the input of our community and remain open to their ideas and solutions, which play a vital role in shaping the future of Lucky Bucks.

Tokenomics:

- Team 5%
- Games 17%
- Drop 15%
- Liquidity 27%
- Community 36%

Collaborations:

Lucky Bucks is actively exploring collaborations with various projects, to create mutually beneficial opportunities.

Marketing Strategy and Community Engagement:

Our marketing strategy revolves around community involvement and partnerships with like-minded projects. We encourage community participation through rewards for activity and engaging events.
